

Sustainable Solutions for the **Oil and Gas Companies** Operating Midstream

The world's leading sustainability consultancy

We work with midstream oil and gas companies to bring sustainable solutions to their challenges, so that they can process, transport, store, and trade oil and gas for their clients.

About ERM

ERM is a leading global sustainability consultancy providing, environmental, health and safety, risk and social solutions to our clients.

ERM is committed to providing a service that is consistent, professional and of the highest quality to create value for our clients.

Over the past three years we have worked for more than 50 percent of the Global Fortune 500 delivering innovative solutions for business and selected government clients helping them understand and manage the sustainability challenges that the world is increasingly facing.

Oil and gas is the largest sector of clients we serve. We have worked with many of the world's major midstream companies, which means we not only understand the key issues, but also have gained experience from around the world in finding solutions to most of the challenges you face.

Challenges and opportunities in an evolving midstream market

The rapid growth of North American crude oil and natural gas production from regional shale plays, Canadian tar sands and the North Slope of Alaska is changing the dynamics of global energy supply, affecting how oil and gas is processed and transported for global market delivery. In response to remarkable growth opportunities, midstream companies face a number of new challenges that include:

Acquisitions and divestments, as well as operating in new markets and geographies

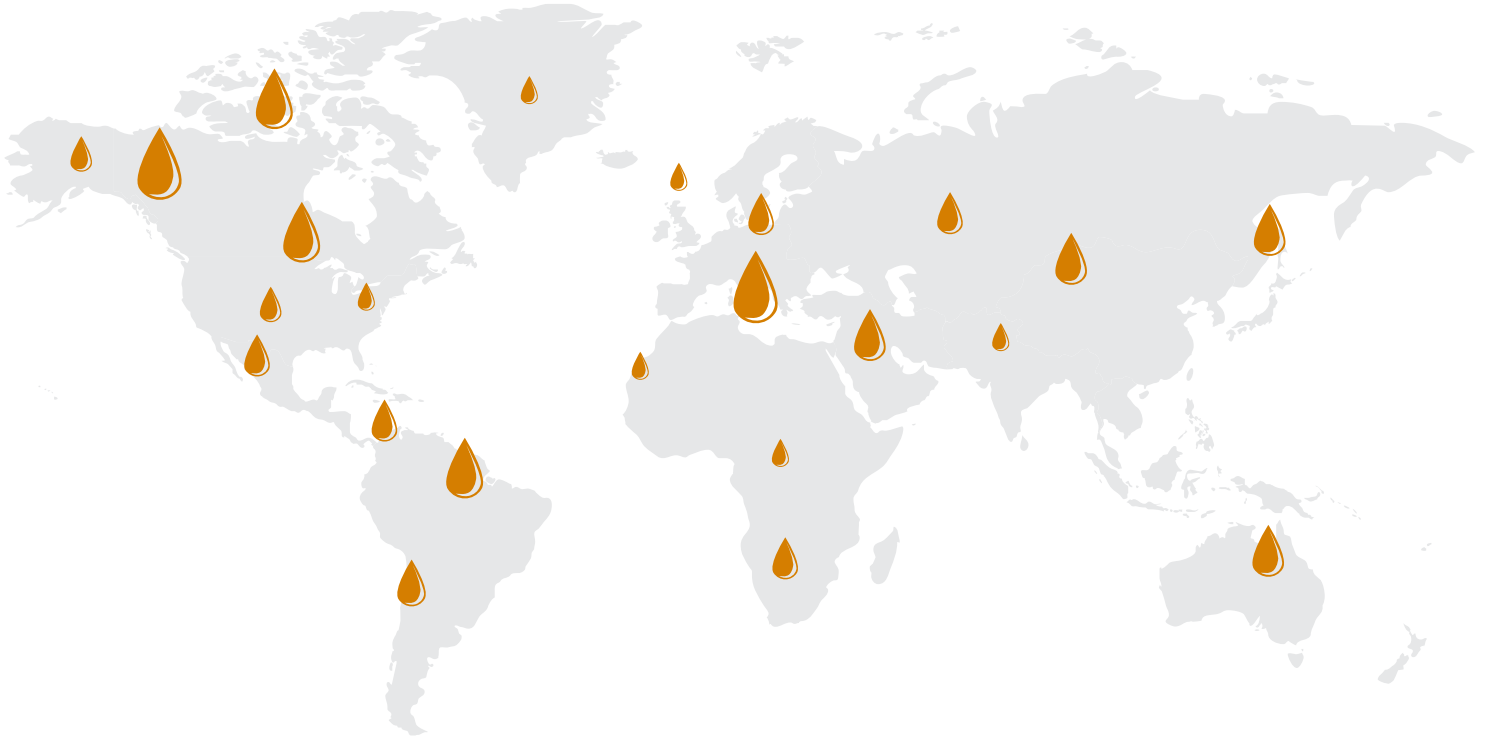

Operational improvement and cost optimization, especially with regard to environmental, health, safety and risk management and security concerns

Capital project delivery from feasibility studies, land and right-of-way acquisition, permitting construction inspections, social issue management and management of public relations and reputational risks

Strategies for the retirement of assets and management of legacy risks

We assist midstream companies address a broad range of issues

Services we offer

Transaction Services

Providing critical, time-sensitive advice on the environment, social and related governance and sustainability risks and liabilities associated with mergers and acquisitions

Impact Assessment and Planning

Helping to deliver sustainable projects by managing environmental, social and health impacts
